L'decor Cool Roof Tiles:

Where Innovation Meets Comfort

Step into a world where your roof becomes your shield against nature's intensity. L'decor's revolutionary cool roof tiles transform your home into a sanctuary of comfort, reflecting the sun's fierce rays like a mirror while your neighbours' roofs absorb every degree of heat.

These aren't just tiles – they're your personal climate guardians, engineered with advanced ceramic technology that can slash your surface temperature by up to 20 degrees Celsius, turning your sweltering attic into a cool retreat and your energy bills into pleasant surprises.

Urban Heat Island Fighter
L'decor tiles combat the "Urban Heat Island Effect" with their superior reflectance properties, making your building a cool oasis in the concrete jungle while contributing to a healthier urban environment.

Versatile Applications
From rooftops to terraces, balconies to courtyards, and even swimming pool areas, these tiles adapt to every architectural vision, proving that sustainability and style can coexist beautifully.

Long-lasting Performance
Built with premium ceramic body construction, L'decor cool roof tiles deliver decades of reliable performance while maintaining their cooling properties year after year.

BENEFITS OF COOL ROOF

- ◆ Effectively reduce temperature of surface (By 10 to 20 degree Celsius) there by making inside room cooler.
- ◆ Saves big on electricity by lowering energy demand.
- ◆ Fights against UHIE "Urban Heat Island Effect" due to its high reflectance of sunlight & heat.
- ◆ Protects your building from damage due to high heat conduction.
- ◆ Meeting guidelines set by IS standards / IGBC & CPWD for energy efficient roof.
- ◆ Our Temp Shield tiles comes with Ceramic Body which makes it long lasting.

WIDE APPLICATION POSSIBILITIES

Roof / Terraces

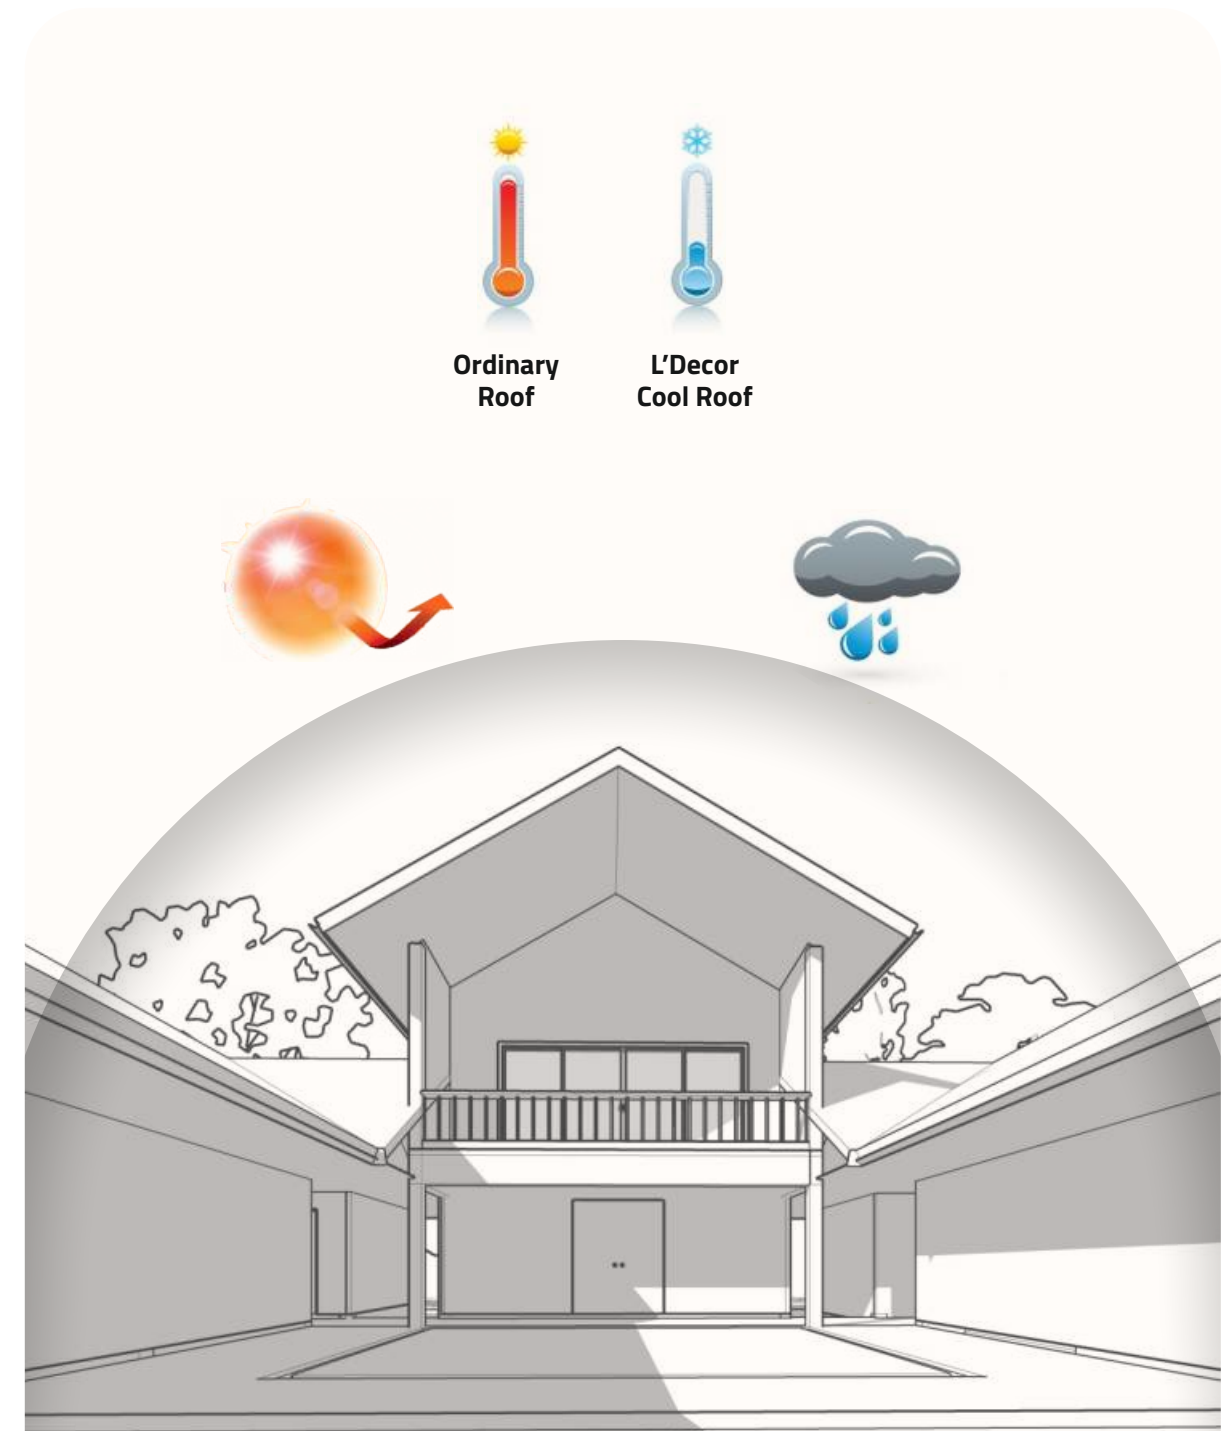

Balconies

Courtyards

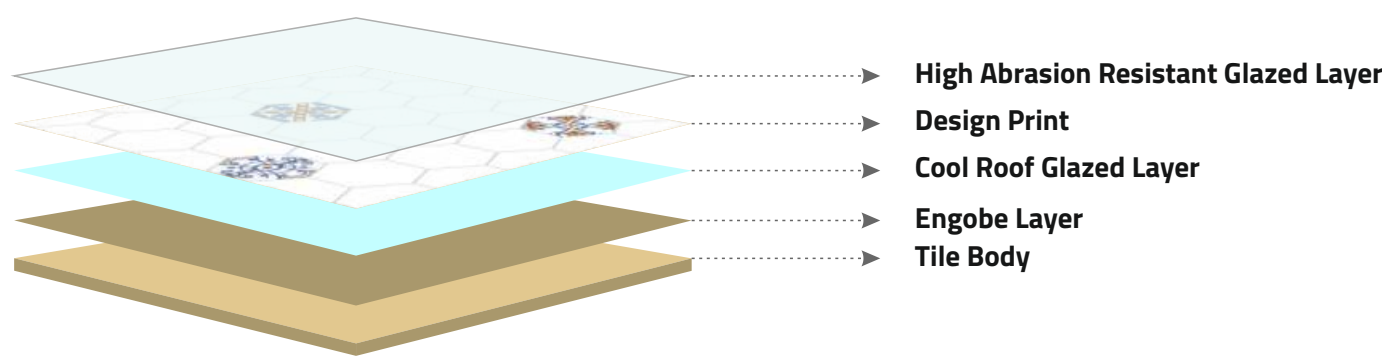

Swimming Pools

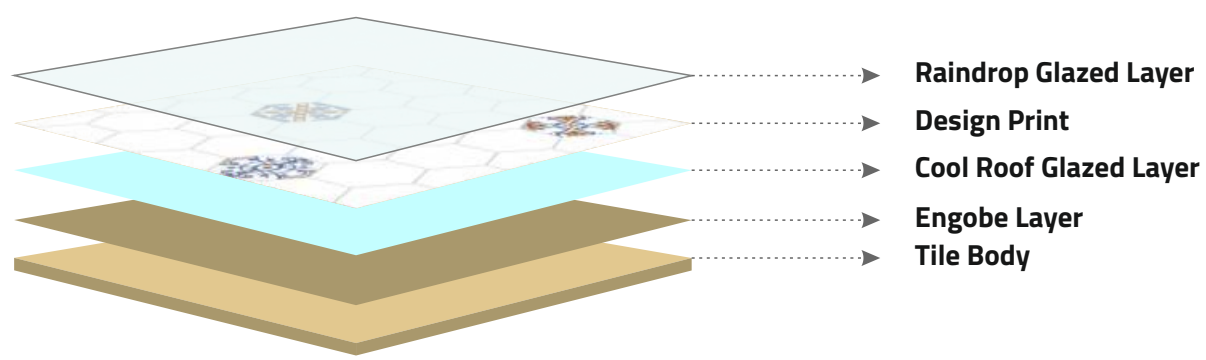

Cool Roof :

Reflects and emits the solar heat instead absorbing it there by cool roof keeps building cooler and reduces the amount of energy needed to cool the building.
