a minimal look but rich in surface and material details: balanced colours, delicate nuances, and reflections and mineral effects characterise every single reference, for a perfect combination of harmonious graphics and complex colours. Roccadura is a real stone for indoor and outdoor applications. A unique collection of the best-known stones used in architecture, elevated to their highest aesthetic potential. Roccadura is our contemporary expression of traditional burgundy limestone, and this collection teams its ancient allure with a modern touch, shaping living spaces in which the past engages with the present.
