SHADES OF JOY

HARMONIOUS BLEND

***Shades Of Joy** is a project that bases its expressive power on colour, the vibrant star of the series, with 8 well-balanced shades ranging from brighter to more natural tones: an original and harmonious colour palette designed to create a wide variety of combinations, from classic and established to more experimental and sophisticated, offering maximum freedom to regulate the emotional temperature of the living space.*

Collection making it possible to obtain trendy shades that are in high demand among architects and interior designers, but are scarcely or not at all available on the ceramic market. The design integrates influences from traditional majolica, whose craftsmanship underlies the gently undulating and softly imperfect surface. Alongside the natural finish, which is matt, but soft to the touch.

PURE, AUTHENTIC COLOUR INFUSED INTO THE MATERIAL OF A CERAMIC

Pure, authentic color infused into the material of a ceramic transcends mere decoration and becomes an intrinsic element of the piece itself.

Unlike surface glazes or paints, which can chip and fade over time, this type of coloration is deeply integrated, ensuring its permanence and enduring beauty.
